Research Strategy Worksheet – EET / PROJ333

Team members: 
Section/COMM advisor: 

What is your research topic? State the research question you aim to answer with this project.

Answer the following questions for three different resources, one of which must be from the Library Discovery Search or a Library database. You can either start a new research process, or you can use resources you have already found; however, if using previously found resources, you must be able to accurately recount the search strategy you used.

<table>
<thead>
<tr>
<th>RESOURCE #1</th>
</tr>
</thead>
<tbody>
<tr>
<td>List the search terms used to find this resource.</td>
</tr>
<tr>
<td>Where did you find this resource? Name the search engine or database you used to locate this item.</td>
</tr>
<tr>
<td>Create an IEEE reference list entry for this resource. Refer to the “IEEE” tab on your library guide (<a href="http://libguides.sait.ca/eet">http://libguides.sait.ca/eet</a>) for assistance.</td>
</tr>
<tr>
<td>Explain why this resource is appropriate and/or valuable for your project. Evaluate the merit of the resource; refer to the “Evaluating information” tab on your library guide (<a href="http://libguides.sait.ca/eet">http://libguides.sait.ca/eet</a>) for assistance.</td>
</tr>
</tbody>
</table>
### RESOURCE #2

**List the search terms used to find this resource.**

**Where did you find this resource?** Name the search engine or database you used to locate this item.

**Create an IEEE reference list entry for this resource.** Refer to the “IEEE” tab on your library guide ([http://libguides.sait.ca/eet](http://libguides.sait.ca/eet)) for assistance.

**Explain why this resource is appropriate and/or valuable for your project.** Evaluate the merit of the resource; refer to the “Evaluating information” tab on your library guide ([http://libguides.sait.ca/eet](http://libguides.sait.ca/eet)) for assistance.

### RESOURCE #3

**List the search terms used to find this resource.**

**Where did you find this resource?** Name the search engine or database you used to locate this item.

**Create an IEEE reference list entry for this resource.** Refer to the “IEEE” tab on your library guide ([http://libguides.sait.ca/eet](http://libguides.sait.ca/eet)) for assistance.

**Explain why this resource is appropriate and/or valuable for your project.** Evaluate the merit of the resource; refer to the “Evaluating information” tab on your library guide ([http://libguides.sait.ca/eet](http://libguides.sait.ca/eet)) for assistance.

---

**Reflect on your research process.** What worked well for you when you conducted your search(es)? What will you do differently next time? Did you encounter challenges to finding the information you wanted?
